

PRESCRIPTION EYEGLASSES

Prescription eyeglasses are custom made for patients based on unique prescriptions and measurements (which may vary per frame choice). Because of this, we are unable to resell glasses once they are made, and thus any returns on eyeglasses are subject to a 20% restocking fee. Patients have up to 14 days from the date of purchase to request a refund. There may be occasional issues with eyeglasses that are not the fault of the patient; in which case our office will take action to fix these problems at no cost. This includes: prescription adjustments and changes, non-adaptation to prescriptions, lenses and materials, lens defects, lab errors, and other unique issues on a case-by-case basis. Full payment for eyeglasses is due at the time of purchase.
